Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

The technical features mentioned in the abstract do not include a reference sign between parentheses (PCT Rule 8.1(d)).

NEW ABSTRACT

Organizing a participant list includes maintaining a participant list of users of an electronic communications system to be used by a first user of the electronic communications system. Communications strengths between the first and each of the users included in the participant list are determined (320) (325). The users included in the participant list are organized based on the corresponding communications strengths. Communications strengths may be determined for users included in a group within the participant list, and the user within the group may be organized within the group based on communication strength. An additional group in the participant list in which some or all of the users included in the participant list are organized based on communications strengths may be provided. Additional users may be added to the participant list, based on the communications strengths between the first user and the additional users (330). New users may be added to the participant list in response to notifications of the new users that are sent to the first user (335). Identifiers included in the participant list may be categorized into groups within the participant based on attributes associated with the identifiers (340).
